

BACKGROUND

LOCATION: Antis Roofing & Waterproofing Headquarters
2649 Campus Drive
Irvine, CA 92612

YEAR FOUNDED: 1989

DESCRIPTION: Antis Roofing and Waterproofing is a fully licensed, bonded and insured provider of roofing, waterproofing and decking services for homeowner's associations and multi-family residential communities in Southern California. Utilizing innovative technology, comprehensive photo-documentation systems and the industry's most experienced technicians, Antis has built its reputable brand on superior workmanship, honesty and transparency. With 80 employees, Antis has served Los Angeles, Orange and San Bernardino counties for more than 25 years. Antis is not only one of the most trusted names in the roofing industry, but also a respected leader in community philanthropy. In addition to supporting numerous charitable causes and humanitarian efforts worldwide, Antis has donated roof installation for every single build for Orange County Habitat for Humanity projects since 2009.

Working with more than 1,000 Southern California multi-tenant housing communities, Antis technicians and roofing experts develop and implement custom installation and maintenance plans that help clients protect their investments and improve their communities.

SERVICES: Services provided by Antis include:

- Roofing Maintenance and Repair
- Roofing System Installation
- Leak Detection and Waterproofing
- Decking System Installation and Maintenance
- Dry Rot Replacement (Fascia and Wood Trim)

COMPANY SERVICES

With 80 highly trained employees who have served Southern California for more than 25 years, Antis provides a broad spectrum of services using advanced technology, materials and years of industry knowledge to provide the highest quality workmanship, from roofing installation and replacement to deck repair and exterior building maintenance.

Roofing System Installation, Maintenance and Repair

Antis provides the most cost-effective solutions in roof replacement and maintenance for homeowners associations and multi-family residential communities, installing a wide range of roofing options which include asphalt shingles, clay and concrete tile, metal, slate, wood shakes and shingles and synthetic roofing systems. Antis is also manufacturer certified for BUR and single ply flat roof systems with No-Dollar-Limit (NDL) warranties.

Antis roofing maintenance and repair services include:

- Leak detection and repair
- Comprehensive maintenance programs
- Debris removal
- Weatherproofing
- Drains, gutter and downspout cleaning
- Fascia trim and dry rot repair
- Water and invasive testing
- Construction defect analysis
- Flashing repair, replacement and reconstruction of building parts damaged by leaks and water contamination
- 24/7 emergency response

Decking Installation, Maintenance and Repair

With the same level of expertise and quality its customers have come to expect from roofing and waterproofing services, Antis installs and maintains urethane, fiberglass, resin, metal lath, and acrylic cement decking systems as well as pool deck overlays, faux finishes, podium decks, planters and negative side waterproofing systems.

Second Opinions

When a roofing professional has determined that a building or buildings in a community require new roofing, Antis encourages property owners to seek a second opinion. While a new roof may be a suitable option, most often Antis can solve the problems with leak repairs and an annual customized maintenance plan that can save up to 80% or more on the cost of re-roofing.

Safety First

In an industry plagued by injuries due to improper practices, Antis considers the safety of every technician its top priority. Conducting weekly classes that focus on fall prevention, as well as Occupational and Safety Health Administration (OSHA) requirements and standards, Antis offers best-in-class services from the highest caliber of licensed, bonded and insured roofing and decking experts in the industry.

PHILANTHROPY

Beyond the Roof: Shelter with a Purpose

Antis is renowned throughout Southern California not only for its outstanding professional work, but also for its longstanding commitment to philanthropy. The company's executives and employees have received numerous accolades and awards for the outstanding quality of their services, as well as their significant impact in the community.

A Call to Action

In response to a simple phone call from a mother of seven during his early days as an entrepreneur, Charles Antis—with the help of volunteers—provided a free roof for a family in desperate need. That first kind and generous act eventually led Antis Roofing and Waterproofing to Habitat for Humanity of Orange County (Habitat OC), where the company has donated roof installation for every single build in Orange County since 2009—half a million dollars' worth.

In addition to working with Habitat OC, Antis executives and employees contribute time and financial resources to international humanitarian efforts and local charitable causes, including the following:

CHARLES ANTIS, FOUNDER & CHIEF EXECUTIVE OFFICER

Charles Antis, founder and CEO of Antis Roofing and Waterproofing, began his career as a roofing professional in 1984. Since then, he has become one of the most trusted names in the Southern California roofing industry, as well as a philanthropic leader in the community.

Roofing expert, entrepreneur and humanitarian, Charles is a member of numerous roofing associations and business groups, including Vistage 390. He is a member of the Board of Directors for the Orange County chapter of Habitat for Humanity, and his company has donated every roof installation of every home built by Habitat OC since 2009. In 2014, Habitat OC awarded him Volunteer of the Year and Action Property Management bestowed Antis Roofing and Waterproofing with the prestigious Community Service Award. In 2017, Antis was awarded the "Community Involvement 1st Place Award" at the International Roofing Expo, sponsored by the National Roofing Contractors Association (NRCA). A

proponent of multi-tenant housing ownership education, Charles has served for more than 20 years on the Education Committee of the Community Associations Institute (CAI), teaching maintenance responsibilities to board members and community managers.

Charles is involved with the National Roofing Contractors Association (NRCA), as a Business Leadership, Consumer Outreach and Political Action committee member, and will begin as a NRCA Board of Directors member beginning June 2017. Charles was also recently appointed a board member of the Orange County Ronald McDonald House Board of Directors. Charles serves on the External Advisory Board for OneOC, where his passion and experience as a local thought leader for corporate social responsibility, helps others in "doing well by doing good." Charles attended Brigham Young University.

###

KAREN L. INMAN, PRESIDENT AND CHIEF OPERATING OFFICER

As President and Chief Operating Officer of Antis Roofing and Waterproofing, Karen L. Inman provides overall leadership of the company, including all areas of operations, employee engagement and customer service. In this key executive role, she also supports the company's longstanding history of charitable giving and mission to give back to the community.

With more than 25 years of professional experience, Karen started her career with one of the best engineering and construction firms in the industry, with positions in construction project management, and technology development and implementation. She then moved into the HOA industry, holding positions in IT, system development and implementation, and ultimately branch operations. Karen's strong track record of operational success and strategic management uniquely equip her to lead and grow Antis. She is committed to providing exceptional service to every client, establishing sound operational practices and creating a high-performance culture among employees.

Karen is a true expert and visionary in the areas of servant leadership, project management, technology in business and HOA industry trends. She holds the prestigious distinction of Certified Project Management Professional (PMP®).

In addition, Karen holds a bachelor's degree in chemical engineering from California State University, Long Beach, as well as a bachelor's degree in information systems from the University of Redlands. She lives in Ladera Ranch, California.
